

NK Windows offer a wide range of window and door styles, designs and sizes. Things to consider are: colour, design, style, size, functionality, accessibility and security.

Colours

Windows and doors are available in the base colours of white and cream plus all 45 laminate colours including single and double-sided options.

NK Windows carries a number of window frame colours in stock in Christchurch, all double-sided unless stated: White, Cream, Golden Oak and Anthracite Grey- out / White- in. Colour codes for identification on NK Windows website and Aluplast colour swatch:

- Golden Oak: 23
- Anthracite Grey: 60

All other 43 laminate colours are available ex-Germany. Some are available double-sided only. Please check with NK Windows.

NK Windows carries a number of entrance door colours in stock in Christchurch, all double-sided unless stated: White, Cream, Golden Oak, Anthracite Grey- out / White- in, Anthracite Grey, Red, Mountain Pine (aka Larch).

Colour codes for identification on NK Windows website and Aluplast colour swatch:

- Golden Oak: 23
- Anthracite Grey: 60
- Red: 32
- Mountain Pine: 55

All other 41 laminate colours are available ex-Germany. Some are available double-sided only. Please check with NK Windows.

Additionally, it is possible to use obscure and coloured glass for privacy and colour coordination / contrast.

Opening types

NK Windows specializes in the European-style tilt & turn inwards opening windows and doors. Tilt & turn windows provide superior security and sealing, secure street-level

ventilation, easy high access cleaning and a very wide opening for emergency egress.

NK Windows also offers non-tilting outwards opening windows – both top-hung and side-hung plus many other door options.

Design

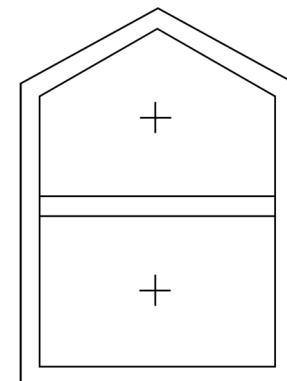

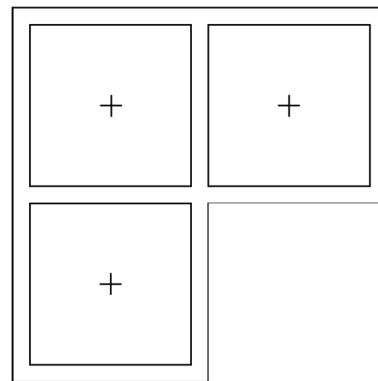

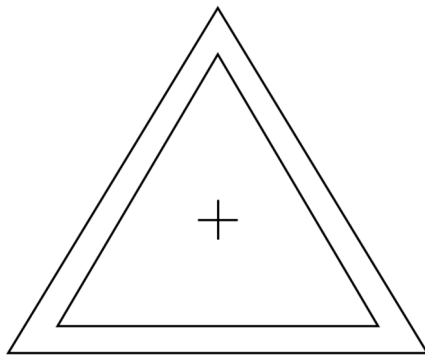

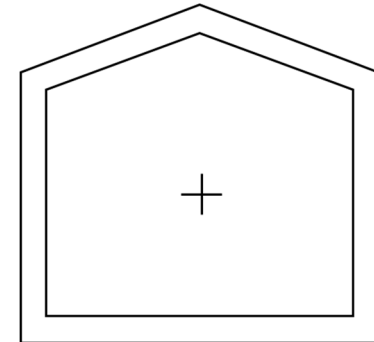

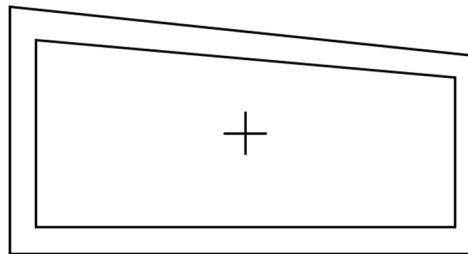

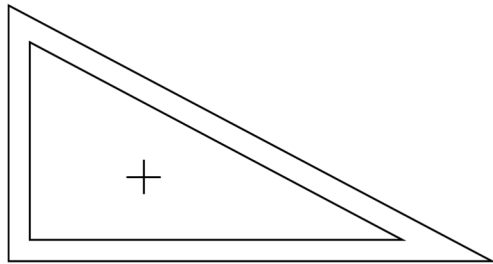

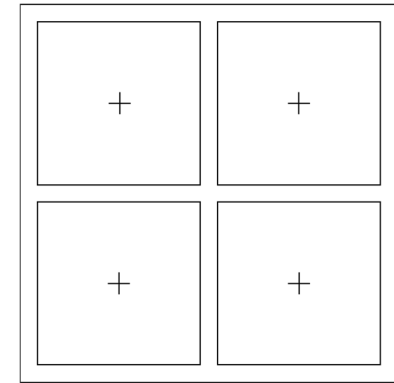

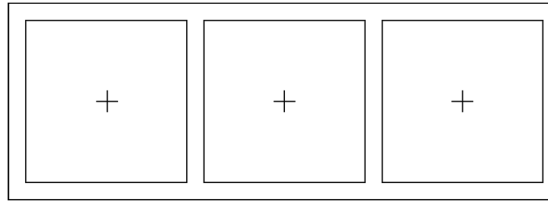

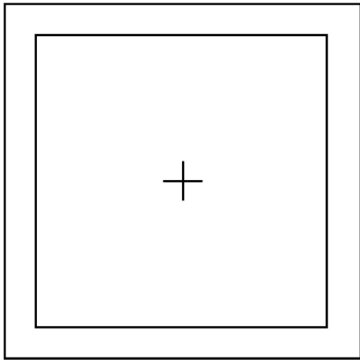

uPVC frames are very well suited to all home designs and can be installed regardless of construction and cladding type. A chunkier profile is preferred by most when looking to replace wooden frames as it maintains the look and style of the house. At the same time, most homeowners will take the opportunity to modernize their home by simplifying openings (most older houses have way too many openings) and removing colonial bars etc.

Windows and doors can easily be manufactured to replicate designs from previous building eras including: cottage, villa, bungalow, state house, art deco, 1970s, 1980s and beyond.

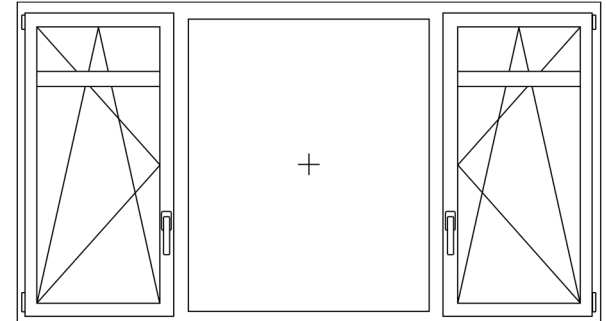

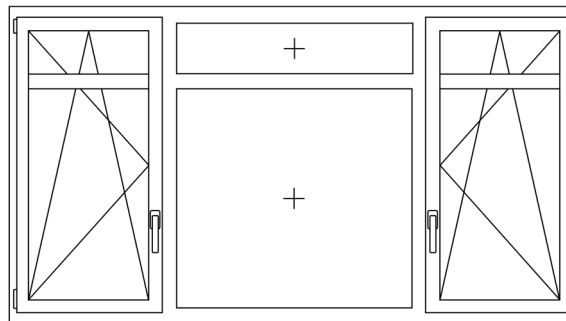

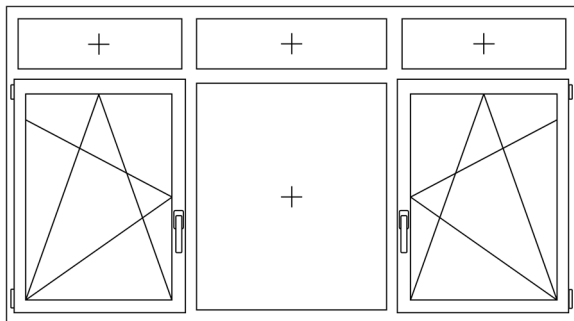

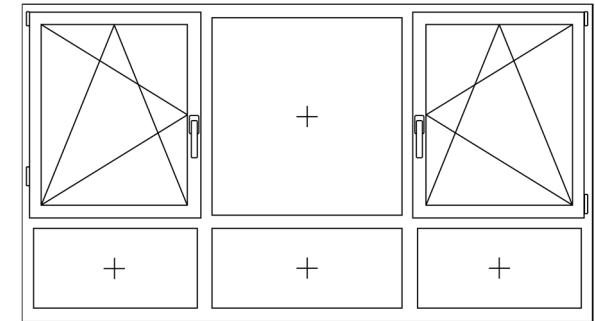

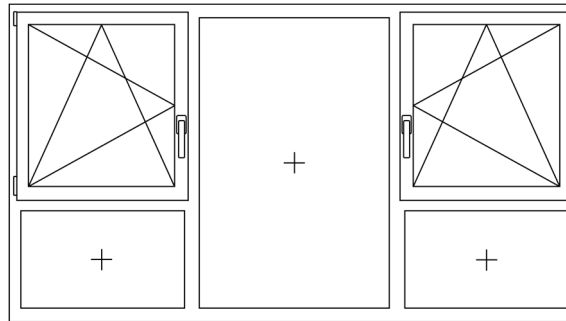

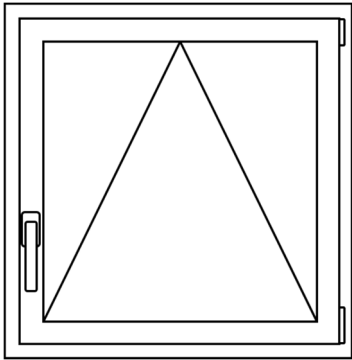

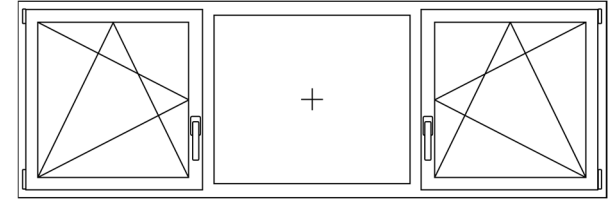

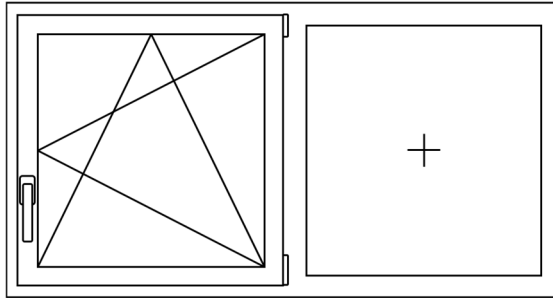

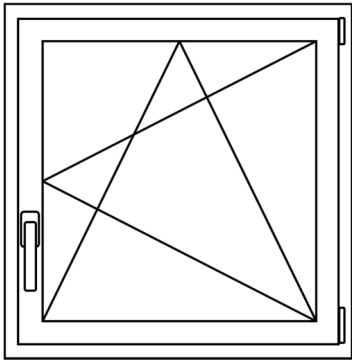

The line drawings on the following pages are intended to provide awareness and inspiration and are by no means exhaustive. They are divided into the following sections:

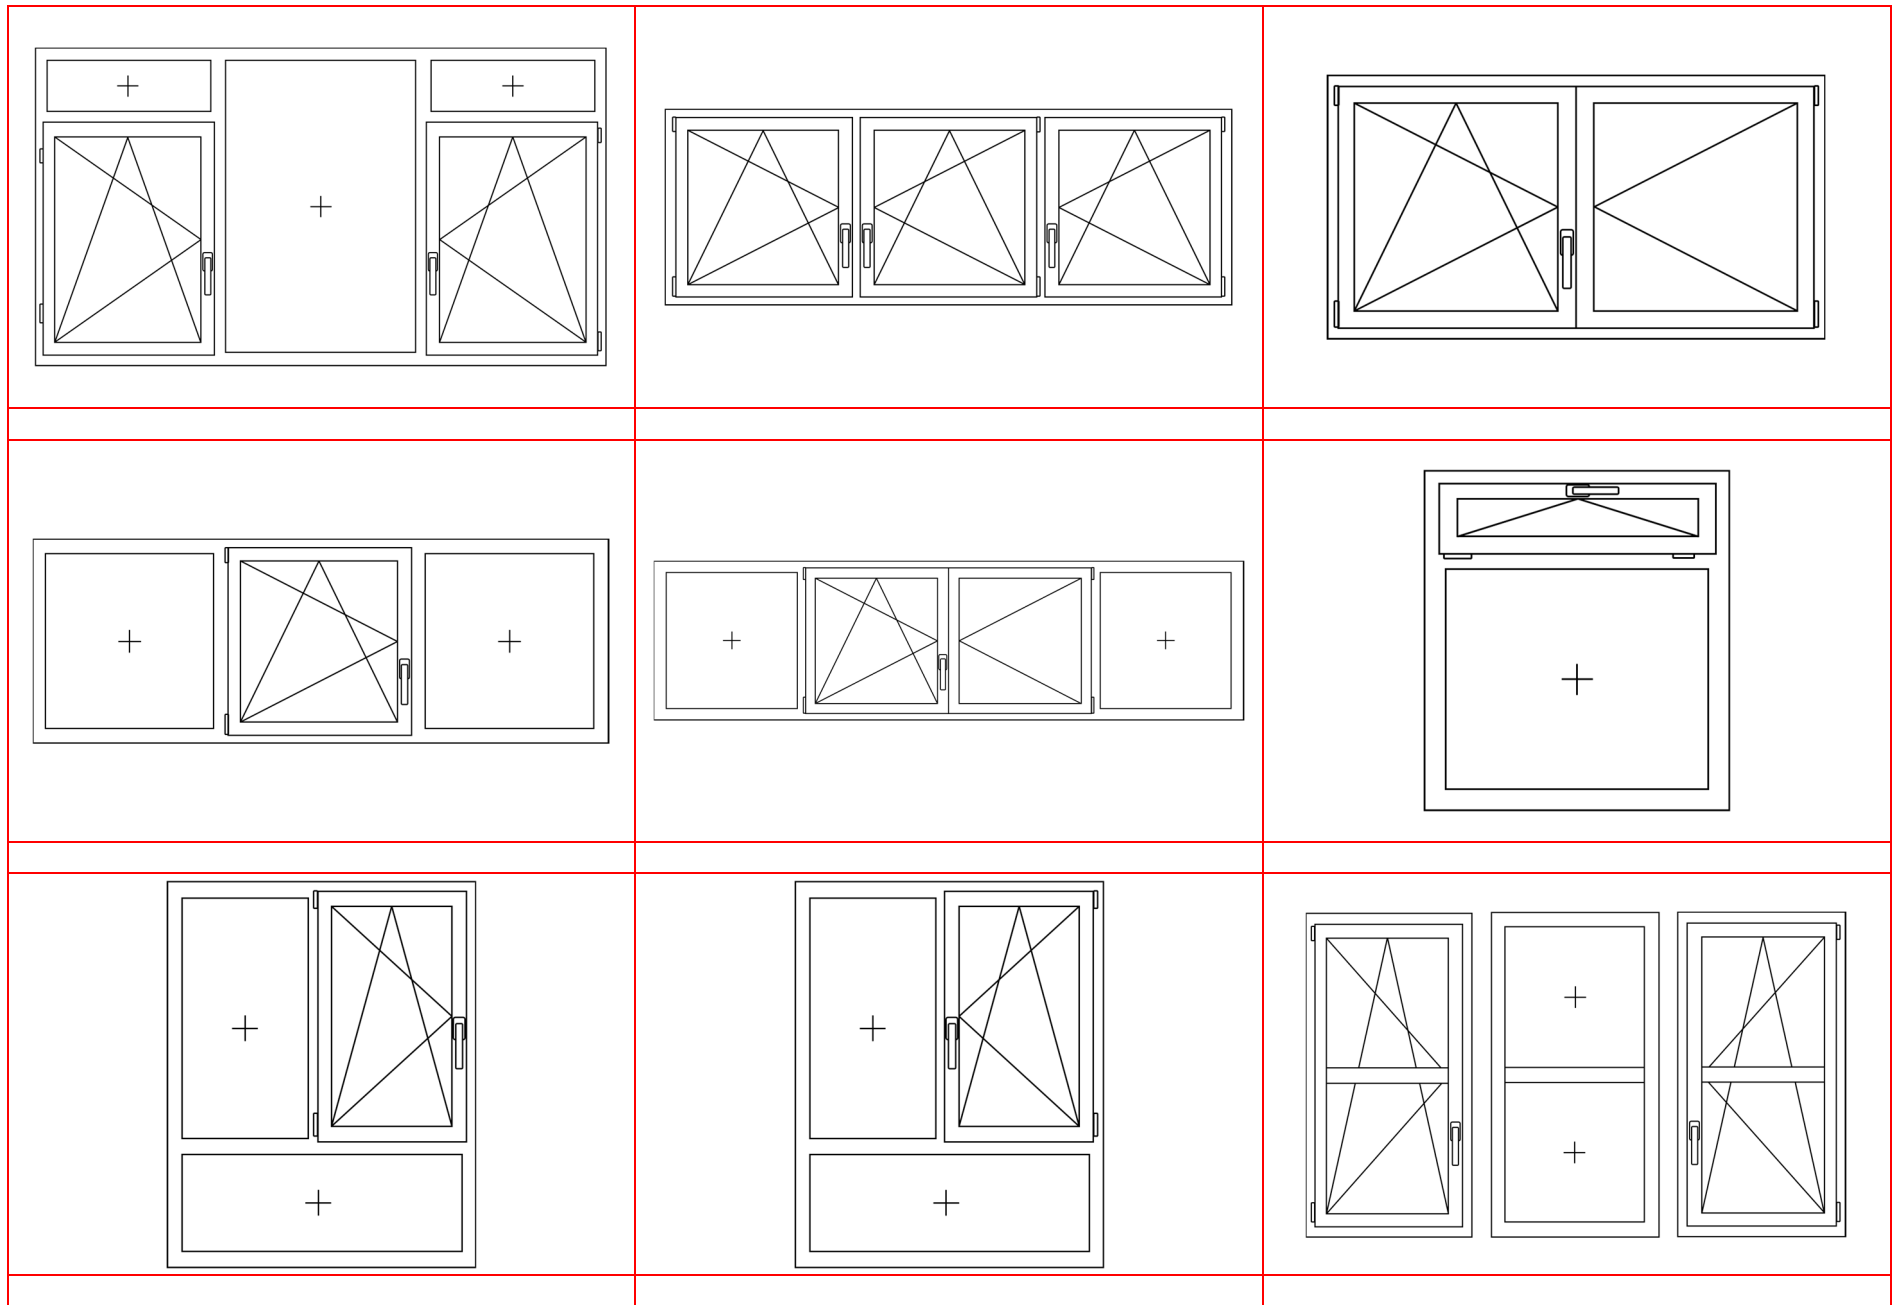

1. Fixed windows
2. Tilt & turn inwards opening windows
3. Outwards opening windows
4. Sliding windows
5. Bi-folding windows
6. Entrance doors
7. Single and French doors
8. Sliding doors – stacking / multi slider doors
9. Sliding doors – tilt & slide doors
10. Sliding doors – lift & slide doors
11. Bi-folding doors

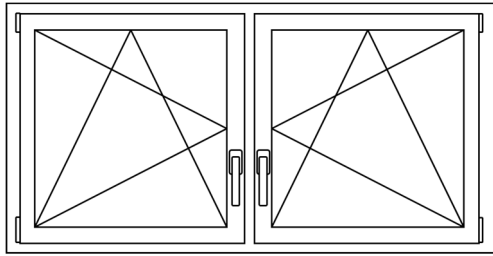

1. Fixed Windows

2. Tilt & Turn – Inwards Opening Windows

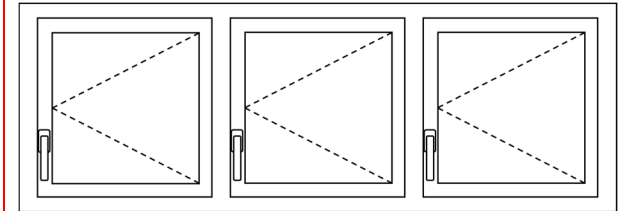

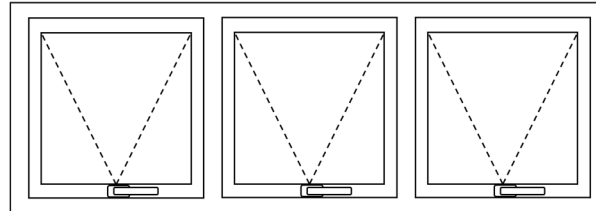

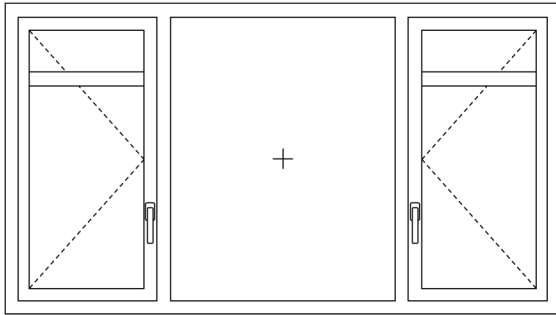

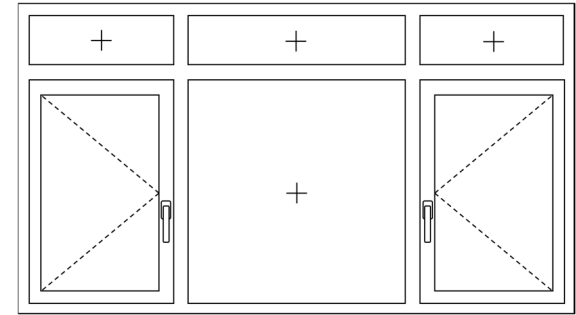

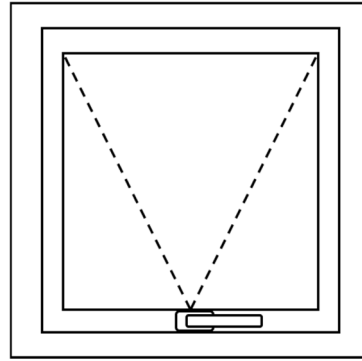

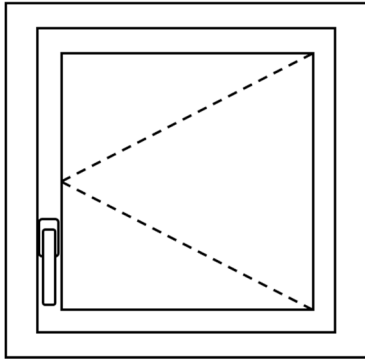

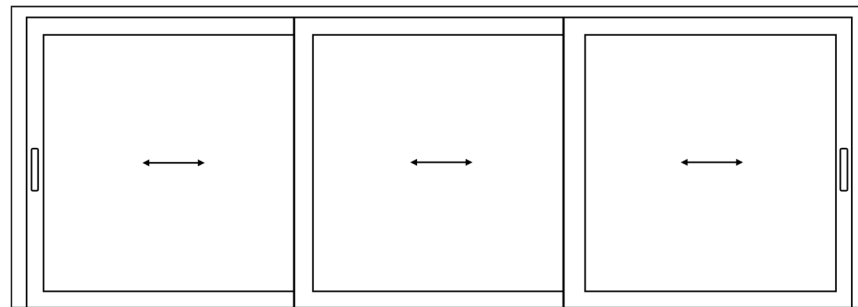

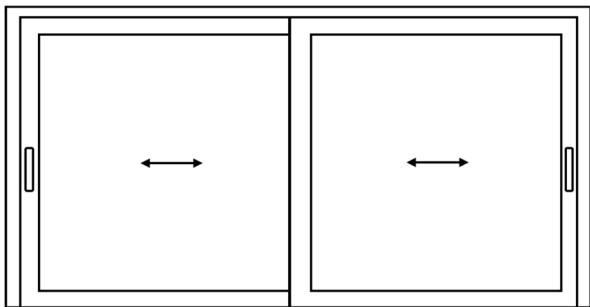

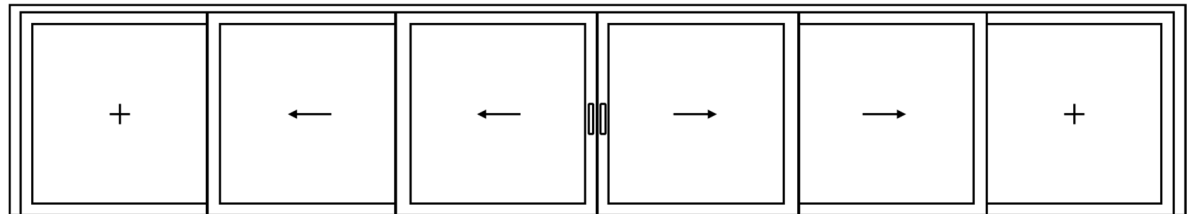

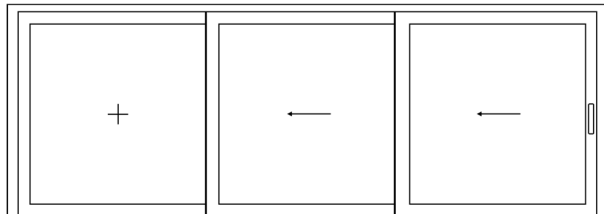

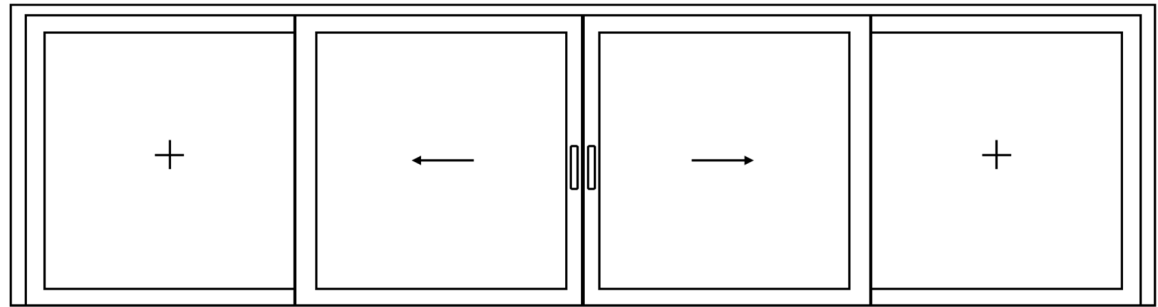

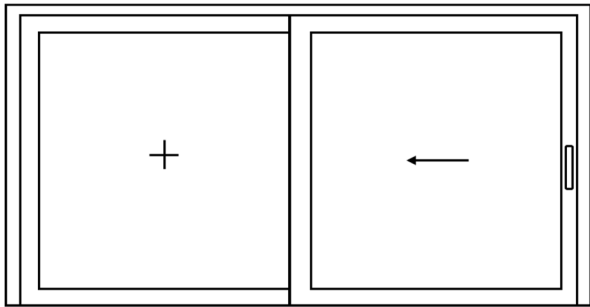

Please speak to us about your design requirements.

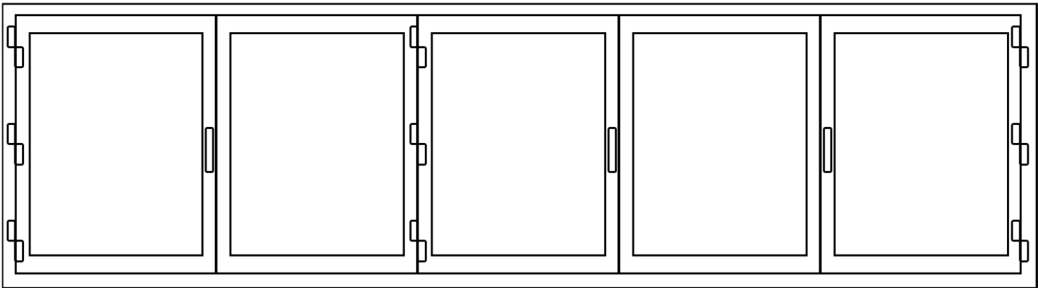

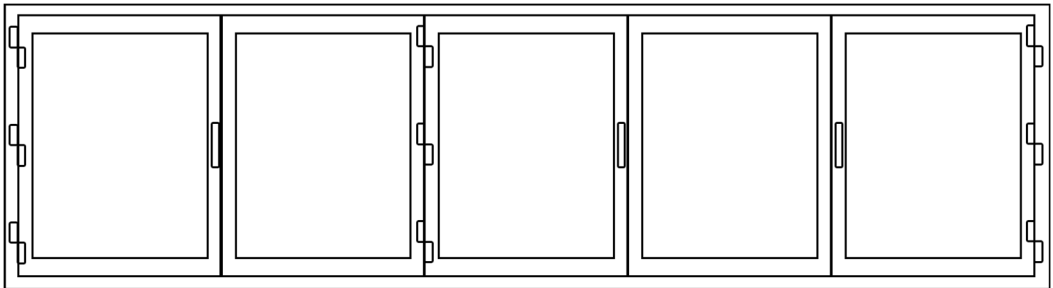

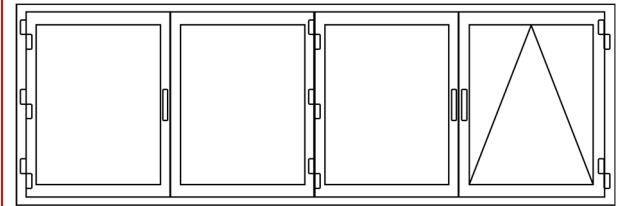

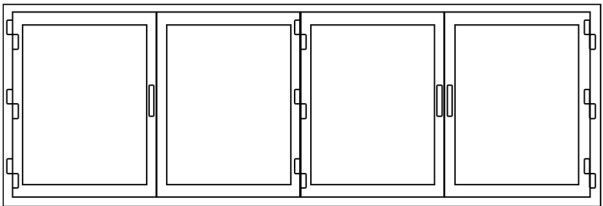

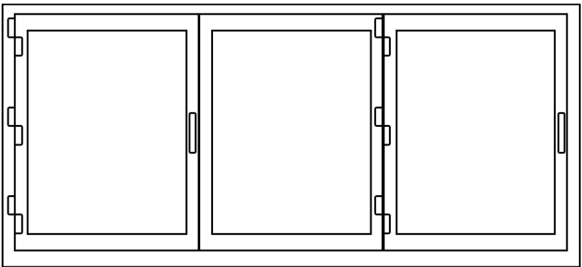

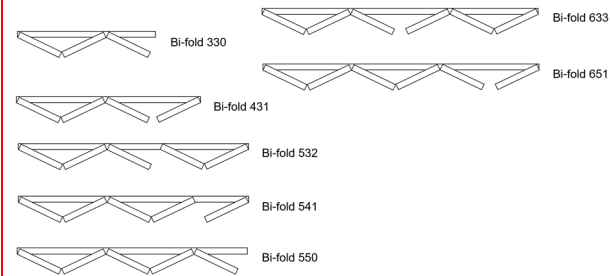

3. Outwards Opening Windows

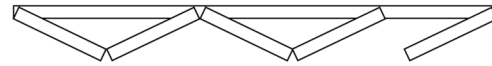

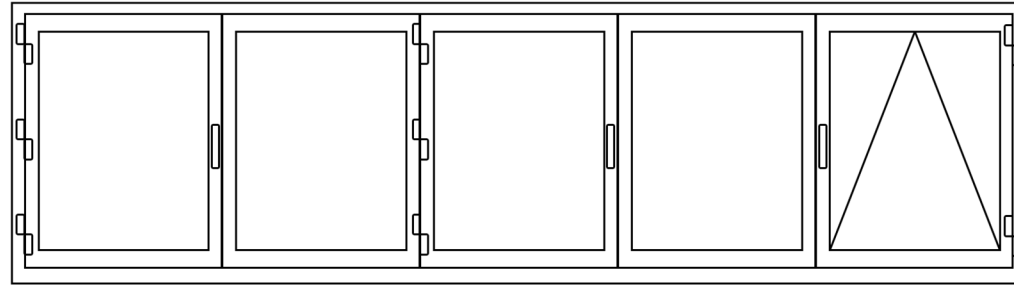

4. Sliding Windows – Stacking Slider / Multi Slider

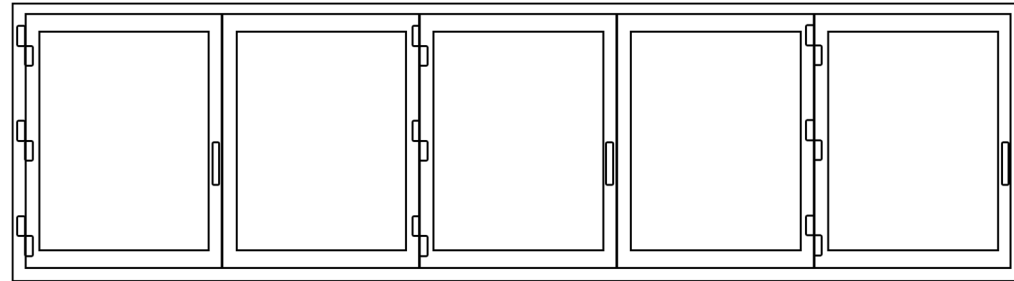

5. Bi-folding Windows – Inwards or Outwards Opening
